Don't just take our word for it, here's what one of our customers has to say:

blu-3

Blu-3 UK Ltd is a multi-disciplined civil engineering and utilities specialist company. As they continue to grow and with constantly changing technology requirements, it was crucial that their mobile account is regularly reviewed to ensure the best price. When we first took over the account, the business had just 15 mobiles - they now have over 150 and are still with O2.

“

Blu-3 are completely reliant on mobile communication, so it's crucial that we have a provider that understands our needs and is able to give us a proactive and responsive service at all times'. Focus group always delivers in this respect, whilst at the same time keeping our mobile bills low. They are the best!

”

Leading UK provider

As one of the UK's leading providers of essential business technology, we've secured preferential tariffs with partners including O2, Vodafone and EE. Which, in a nutshell, means the best prices. Which we'd love to share with you!
